**Adult Reference:  
(262) 246-5181**

**We are happy to assist you with accessing OverDrive eAudiobooks, either in-person or on the phone.**

# Instructions For Downloadable Audiobooks

N64 W23820 Main St. Sussex, WI 53089

**Note:** If you are using a smartphone, tablet, or iPod to listen to audiobooks, please see our handout on the OverDrive App. You can still download and listen to audiobooks on your computer, and browse, borrow, and put things on hold using the full website, but you will need the app to download titles to your mobile device.

**1** Start at our website:

<http://phplonline.org>

**2** Click on the eBooks & Digital Audiobooks link:

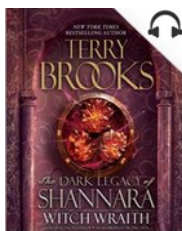

eBooks & Digital  
Audiobooks

**3** Click “Sign In” in the upper right hand corner of the page. Type in “Pauline Haass” and select your library, and then enter the barcode number on your library card (including all letters) and PIN/password (for most cardholders, this is your date of birth in one of the following formats: MM/DD/YYYY or MMDDYYYY).

**4** If this is your first time signing in, set your default loan periods (either 7 or 14 days for audiobooks) by clicking on “Account” and then “Settings.” Be sure to click “Done” to save your settings when you are finished.

**5** Search for titles or authors in the search bar, or click “Menu” to browse. If the item is available, you can check it out by clicking “Borrow”. If the item is unavailable, you can place it on hold. You will then be emailed when it is available for download.

**Tips:** Check the headphone symbol at the upper right corner of a book to see whether it is available.

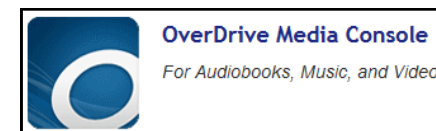

Available to Borrow

Unavailable—place a hold

**Or:** On the left hand side of your results page, change the “Show Me” option from “My library’s collection” to “Only titles with copies available.”

**6** If you do not already have it, download OverDrive Media Console (OMC): click the “Help” button, then click “Software.”\*

**\*This free software requires the creation of a username (your email) and password. It will only need to be entered once to authorize your device.**

**7** You can now download the title to your computer and listen to it there or transfer it to an MP3 player. It will expire on its own, so you don’t have to worry about late fees! You must still delete the file after it expires. If you want to download your audiobooks to a mobile device, you can log on to your account from the OMC app and download from there- see our handout for more details.

For more information, please ask at the reference desk or visit [help.overdrive.com](http://help.overdrive.com) for how-to videos, articles, troubleshooting, and more.
